TERRA (IN)COGNITA II

TERRA EUROPAE. EARTHEN ARCHITECTURE IN THE EUROPEAN UNION

A follow-up project to Terra INCÓGNITA project, based on scientific missions to the 27 countries of the European Union. It consisted of defining the state of the art of European earthen architecture, in terms of heritage and contemporary architecture; restoration and training; education and academic research; professionals and producers, etc. A rigorous mapping of earthen architecture in the 27 countries was carried out, as well as the recognition of key specialists, allowing the creation, consolidation and dissemination of an operative network of European specialists.

NATURA MINHO-MIÑO

VALORIZATION OF THE RESOURCES OF THE MIÑO-MINHO RIVER BASIN

This Iberian project was based on the creation of an inter-disciplinary and inter-institutional platform. The aim was to create a geo-referenced database of the natural resources of the Minho River basin, in order to encourage their preservation, enhancement and dissemination.
